INDEPENDENT AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT

The Shareholders and Board of Directors
California Bank of Commerce
Lafayette, California

Report on the Financial Statements

We have audited the accompanying financial statements of California Bank of Commerce, which comprise the balance sheets as of December 31, 2015 and 2014, and the related statements of income, comprehensive income, changes in shareholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of California Bank of Commerce as of December 31, 2015 and 2014, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

California Bank of Commerce (the "Bank") was approved as a state-chartered non-member bank on March 23, 2007, and commenced operations on July 17, 2007. The Bank is subject to regulation by the California Department of Business Oversight (the "CDBO") and the Federal Deposit Insurance Corporation (the "FDIC"). The Bank is headquartered in Lafayette, California and provides products and services to customers who are predominately small to middle-market businesses, professionals and not-for-profit organizations located in Contra Costa, Alameda, Santa Clara and surrounding counties.

On December 31, 2015, the bank completed its merger with Pan Pacific Bank ("PPB") with Branch offices in Fremont and San Jose, California. The acquisition complements the Bank's expansion strategy and enhances the Bank's market presence in the San Francisco South Bay region.

Basis of Presentation

The accounting and reporting policies of the Bank conform with accounting principles generally accepted in the United States of America and prevailing practices within the banking industry.

Certain Reclassification

Certain items in the consolidated financial statements for the years ended December 31, 2014 were reclassified to conform to the 2015 presentation. These reclassifications did not affect previously reported net income.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Cash and Cash Equivalents

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and due from banks, interest bearing deposits in banks with original maturities of 90 days or less and Federal funds sold. Generally, Federal funds are sold for one day periods. Cash flows from loans, deposits and other borrowings are presented on a net basis.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Securities

Investment securities are classified into the following categories:

- Available-for-sale securities, reported at fair value, with unrealized gains and losses excluded from earnings and reported, net of taxes, as accumulated other comprehensive income (loss) within shareholders' equity.
- Held-to-maturity securities, which management has the positive intent and ability to hold, reported at amortized cost, adjusted for the accretion of discounts and amortization of premiums.

Management determines the appropriate classification of its investments at the time of purchase. Subsequent transfers between categories are accounted for at fair value.

Gains and losses on the sale of investment securities are computed using the specific identification method. Interest earned on investment securities is reported in interest income, net of applicable adjustments for accretion of discounts and amortization of premiums using the level yield method adjusted for changes in principal prepayment speeds.

An investment security is impaired when its carrying value is greater than its fair value. Investment securities that are impaired are evaluated on at least a quarterly basis and more frequently when economic or market conditions warrant such an evaluation to determine whether such a decline in their fair value is other than temporary. Management utilizes criteria such as the magnitude and duration of the decline and the intent and ability of the Bank to retain its investment in the securities for a period of time sufficient to allow for an anticipated recovery in fair value, in addition to the reasons underlying the decline, to determine whether the loss in value is other than temporary. The term "other than temporary" is not intended to indicate that the decline is permanent, but indicates that the prospects for a near-term recovery of value is not necessarily favorable, or that there is a lack of evidence to support a realizable value equal to or greater than the carrying value of the investment. Once a decline in value is determined to be other than temporary, and management does not intend to sell the security or it is more likely than not that the Bank will not be required to sell the security before recovery, only the portion of the impairment loss representing credit exposure is recognized as a charge to earnings, with the balance recognized as a charge to other comprehensive income. If management intends to sell the security or it is more likely than not that the Bank will be required to sell the security before recovering its forecasted cost, the entire impairment loss is recognized as a charge to earnings.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment in Federal Home Loan Bank Stock

As a member of the Federal Home Loan Bank of San Francisco, the Bank is required to maintain an investment in the capital stock of the Federal Home Loan Bank (the "FHLB"). The investment is carried at cost, classified as a restricted security, and periodically evaluated for impairment based on the ultimate recovery of par value.

At December 31, 2015 and 2014, the Bank's investment in FHLB stock totaled \$2,140,700 and \$1,567,000, respectively, and is included on the balance sheet in accrued interest receivable and other assets. Cash dividends are reported as income.

Investment in Other Bank Stocks

Independent Bankers Financial Corporation

The Independent Bankers Financial Corporation (the "IBFC"), the holding company for The Independent Banker's Bank, provides services exclusively to banks. At December 31, 2015 and 2014, the Bank's investment in IBFC stock totaled \$112,795 and \$50,419, respectively. The investment is carried at cost and is included on the balance sheet in accrued interest receivable and other assets.

Pacific Coast Bankers' Bancshares

The Pacific Coast Bankers' Bancshares ("PCBB"), the holding company for The Pacific Coast Banker's Bank, provides services exclusively to banks. At December 31, 2015 and 2014, the Bank's investment in PCBB stock totaled \$380,000 and \$190,000 respectively. The investment is carried at cost and is included on the balance sheet in accrued interest receivable and other assets.

Bank Owned Life Insurance

The Bank has purchased life insurance policies on certain current and former executives. Bank owned life insurance is recorded at the amount that can be realized under the insurance contract at the balance sheet date, which is the cash surrender value adjusted for other charges or other amounts due that are probable at settlement.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loans

Loans that management has the intent and ability to hold for the foreseeable future, or until maturity or payoff, are reported at the principal balances outstanding, net of deferred fees and costs, purchase premiums and discounts and the allowance for loan losses. Loans transferred from loans held for sale are carried at the lower of principal balance or market value at the date of transfer adjusted for accretion of discounts. Interest is accrued daily based upon outstanding loan balances. However, when, in the opinion of management, loans are considered to be impaired and the future collectability of interest and principal is in serious doubt, loans are placed on nonaccrual status and the accrual of interest income is suspended. Any interest accrued but unpaid is charged against income. Payments received are applied to reduce principal to the extent necessary to ensure collection. Subsequent payments on these loans, or payments received on nonaccrual loans for which the ultimate collectability of principal is not in doubt, are applied first to earned but unpaid interest and then to principal.

Generally, loans are restored to accrual status when the obligation is brought current and has performed in accordance with the contractual terms for a reasonable period of time and the ultimate collectability of the total contractual principal and interest is no longer in doubt. The policy for placing loans on nonaccrual status, recording payments received on nonaccrual loans, resuming the accrual of interest and determining past due or delinquency status, does not differ by portfolio segment or class of financing receivable.

An impaired loan is measured based on the present value of expected future cash flows discounted at the loan's effective rate or, as a practical matter, at the loan's observable market price or the fair value of collateral less estimated costs to sell if the loan is collateral dependent. A loan is collateral dependent if the repayment of the loan is expected to be provided solely by the underlying collateral. All loans are evaluated and considered impaired when, based on current information and events, it is probable that the Bank will be unable to collect all amounts due (including both principal and interest) in accordance with the contractual terms of the loan agreement. The policy for accounting for impaired loans, recognizing interest on impaired loans and recording payments on impaired loans is generally the same as that described above for nonaccrual loans, and does not differ by portfolio segment or class of financing receivable.

Substantially all loan origination fees, commitment fees, direct loan origination costs and purchase premiums and discounts on loans are deferred and recognized as an adjustment of yield, to be amortized to interest income over the contractual term of the loan. The unamortized balances of deferred fees and costs and purchase premiums and discounts are reported as a component of net loans.

The Bank services loans that have been participated with other financial institutions totaling approximately \$40,517,000 and \$11,493,000, respectively, as of December 31, 2015 and 2014. The participated balances of these loans were sold without recourse and are not included on the Bank's balance sheet.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Allowance for Loan Losses

The allowance for loan losses is an estimate of probable credit losses in the Bank's loan portfolio that have been incurred as of the balance-sheet date. The allowance is established through a provision for loan losses which is charged to expense. Additions to the allowance are expected to maintain the adequacy of the total allowance after credit losses and loan growth. Credit exposures determined to be uncollectible are charged against the allowance. Cash received on previously charged off amounts is recorded as a recovery to the allowance. The policy for charging off loans and recording recoveries does not differ by portfolio segment or class of financing receivable. The overall allowance consists of two primary components, specific reserves related to individually identify impaired loans and general reserves for losses related to loans that are collectively evaluated for impairment.

A restructuring of a debt constitutes a troubled debt restructuring (TDR) if the Bank for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. Restructured workout loans typically present an elevated level of credit risk as the borrowers are not able to perform according to the original contractual terms. Loans that are reported as TDRs are considered impaired and measured for impairment as described above.

The determination of the general reserve for loans that are collectively evaluated for impairment is based on estimates made by management, to include, but not limited to, consideration of historical losses by portfolio segment for the trailing four quarters, the loan risk rating, internal asset classifications, and qualitative factors to include economic trends in the Bank's service areas, industry experience and trends, geographic concentrations, estimated collateral values, the Bank's underwriting policies, the character of the loan portfolio, and probable losses inherent in the portfolio taken as a whole.

The Bank maintains a separate allowance for each portfolio segment (loan type). These portfolio segments include commercial & industrial, real estate - construction & land, real estate - other, real estate - home equity lines of credit ("HELOC") and installment & other. The allowance for loan losses attributable to each portfolio segment, which includes both impaired loans and loans that are not impaired, is combined to determine the Bank's overall allowance, which is included on the balance sheet.

The Bank assigns a risk rating to all loans and periodically, but not less than annually, performs reviews of all such loans to identify credit risks and to assess the overall collectability of the portfolio. These risk ratings are also subject to examination by independent specialists engaged by the Bank and the Bank's regulators. During these internal reviews, management monitors and analyzes the financial condition of borrowers and guarantors, trends in the industries in which borrowers operate and the fair values of collateral securing these loans. These credit quality indicators are used to assign a risk rating to each individual loan. The risk ratings can be grouped into five major categories, defined as follows:

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Allowance for Loan Losses (Continued)

Pass – A pass loan is a strong credit with no existing or known potential weaknesses deserving of management's close attention.

Special Mention – A special mention loan has potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or in the Bank's credit position at some future date. Special Mention loans are not adversely classified and do not expose the Bank to sufficient risk to warrant adverse classification.

Substandard – A substandard loan is not adequately protected by the current sound worth and paying capacity of the borrower or the value of the collateral pledged, if any. Loans classified as substandard have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. Well defined weaknesses include a project's lack of marketability, inadequate cash flow or collateral support, failure to complete construction on time or the project's failure to fulfill economic expectations. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected.

Doubtful – Loans classified doubtful have all the weaknesses inherent in those classified as substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently known facts, conditions and values, highly questionable and improbable.

Loss – Loans classified as loss are considered uncollectible and charged off immediately.

The general reserve component of the allowance for loan losses also consists of reserve factors that are based on management's assessment of the following for each portfolio segment: (1) risk ratings, (2) historical losses of the Bank or its peers for the trailing four quarters and (3) other qualitative factors. These reserve factors are inherently subjective and are driven by the repayment risk associated with each portfolio segment described below.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Allowance for Loan Losses (Continued)

Commercial & Industrial – Commercial loans generally possess a lower inherent risk of loss than real estate portfolio segments because these loans are generally underwritten to existing cash flows of operating businesses. Debt coverage is provided by business cash flows and economic trends influenced by unemployment rates and other key economic indicators are closely correlated to the credit quality of these loans.

Real Estate - Construction & Land – Real estate construction loans (including land and development loans) generally possess a higher inherent risk of loss than other real estate portfolio segments. A major risk arises from the necessity to complete projects within specified cost and time lines. Trends in the construction industry significantly impact the credit quality of these loans, as demand drives construction activity. In addition, trends in real estate values significantly impact the credit quality of these loans, as property values determine the economic viability of construction projects.

Real Estate - Other – Real estate mortgage loans generally possess a higher inherent risk of loss than other real estate portfolio segments, except land and construction loans. Adverse economic developments or an overbuilt market impact commercial real estate projects and may result in troubled loans. Trends in vacancy rates of commercial and residential properties impact the credit quality of these loans. High vacancy rates reduce operating revenues and the ability for properties to produce sufficient cash flow to service debt obligations.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Allowance for Loan Losses (Continued)

Real Estate - HELOC – The degree of risk in residential real estate lending depends primarily on the loan amount in relation to collateral value, the interest rate and the borrower's ability to repay in an orderly fashion. These loans generally possess a lower inherent risk of loss than other real estate portfolio segments. Economic trends determined by unemployment rates and other key economic indicators are closely correlated to the credit quality of these loans. Weak economic trends indicate that the borrowers' capacity to repay their obligations may be deteriorating.

Installment & Other – An installment loan portfolio is usually comprised of a number of small loans scheduled to be amortized over a specific period. Most installment loans are made directly for consumer purchases, but business loans granted for the purchase of heavy equipment or industrial vehicles may also be included. Economic trends determined by unemployment rates and other key economic indicators are closely correlated to the credit quality of these loans. Weak economic trends indicate that the borrowers' capacity to repay their obligations may be deteriorating. Loans in the "Other" category are typically inconsequential and typically include overdrafts on deposit accounts.

Although management believes the allowance to be adequate, ultimate losses may vary from its estimates. At least quarterly, the Board of Directors reviews the adequacy of the allowance, including consideration of the relative risks in the portfolio, current economic conditions and other factors. If the Board of Directors and management determine that changes are warranted based on those reviews, the allowance is adjusted. In addition, the Bank's primary regulators, the FDIC and CDBO, as an integral part of their examination process, review the adequacy of the allowance. These regulatory agencies may require additions to the allowance based on their judgment about information available at the time of their examinations.

Acquired Loans

The Bank acquired loans through business acquisitions. Acquired loans are recorded at their estimated fair values at acquisition date, factoring in credit losses expected to be incurred over the life of the loan. Accordingly, an allowance for loan losses is not carried over or recorded for acquired loans as of the acquisition date.

The entire fair value discount accreted to interest income using an effective interest rate method for term loans, and on a straight line basis to interest income for revolving lines, as the timing and amount of cash flows under revolving lines are not predictable. Subsequent to acquisition, if the probable and estimable credit losses for non-purchased credit impaired loans exceed the amount of the remaining unaccreted discount, the excess is established as an allowance for loan losses.

California Bank of Commerce

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Purchased Credit Impaired Loans

The Bank acquired one loan in its merger with PPB that had evidence of credit quality deterioration subsequent to its origination and for which it was probable, at acquisition, that the Bank would be unable to collect all contractually required payments (PCI loan). These loans are evaluated on an individual basis. Management has applied significant subjective judgment in determining which loans are PCI loans. Evidence of credit quality deterioration as of the purchase date may include data such as past due and nonaccrual status, risk grades and recent loan-to-value percentages. Revolving credit agreements (e.g., home equity lines of credit and revolving commercial loans) where the borrower had revolving privileges at acquisition date are not considered PCI loans because the timing and amount of cash flows cannot be reasonably estimated.

Allowance for Credit Losses on Off-Balance-Sheet Credit Exposures

The Bank also maintains a separate allowance for off-balance-sheet commitments. Management estimates anticipated losses using historical data and utilization assumptions. The allowance for off-balance-sheet commitments is included in accrued interest payable and other liabilities on the balance sheet, and totaled \$135,000 and \$75,000 at December 31, 2015 and 2014, respectively.

Other Real Estate Owned

Other real estate owned ("OREO") consist of properties acquired through foreclosure. The Bank values these properties at fair value less estimated costs to sell at the time it acquires them, which establishes the new cost basis. After it acquires them, the Bank carries such properties at the lower of cost or fair value less estimated selling costs. If the Bank records any income from the property after acquiring them, it includes this amount in other non-interest income. If the Bank records any write-downs or there are any operating expense of such properties after acquiring them, it includes this amount in other non-interest expense.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

At December 31, 2015, the Bank did not have any OREO. At December 31, 2014 there was one commercial property valued at \$2,571,090 owned by the Bank that was acquired through the foreclosure process and is included on the balance sheet in accrued interest receivable and other assets.

Transfer of Financial Assets

Transfers of financial assets are accounted for as sales, when control over the assets has been surrendered. Control over transferred assets is deemed surrendered when (1) the assets have been isolated from the Bank, (2) the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and (3) the Bank does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity.

Sales and Servicing of Government Guaranteed Loans

Included in the portfolio are loans which, in general, are 70 to 90 percent guaranteed by either the U.S. Department of Agriculture (the "USDA") or the Small Business Administration (the "SBA"). The guaranteed portion of these loans may be sold to a third party, with the Bank retaining the unguaranteed portion. The Bank generally receives a premium in excess of the adjusted carrying value of the loan at the time of sale. The Bank may be required to refund a portion of the sales premium if the borrower defaults or the loan prepays within ninety days of the settlement date. However, none of the premiums the Bank had received were subject to these recourse provisions as of December 31, 2015 and 2014. There were no USDA and SBA loans held for sale at December 31, 2015 and 2014. The guaranteed portion of USDA and SBA loans sold, totaling approximately \$9,297,000 and \$9,452,000 were being serviced for others at December 31, 2015 and 2014, respectively.

Servicing rights acquired through 1) a purchase or 2) the origination of loans which are sold with servicing rights retained are recognized as separate assets or liabilities. Servicing assets or liabilities are initially recorded at fair value and are subsequently amortized in proportion to, and over the period of the related net servicing income or expense. Servicing assets are periodically evaluated for impairment. Fair values are estimated using discounted cash flows based on current market interest rates. For purposes of measuring impairment, servicing assets are stratified based on note rate and term. The amount of impairment recognized is the amount by which the servicing assets for a stratum exceed their fair value. Servicing assets totaling \$147,000 and \$59,000 associated with loans previously sold which were included in accrued interest receivable and other assets at December 31, 2015 and 2014, respectively.

In addition, assets (accounted for as interest-only (IO) strips) are recorded at the fair value of the difference between note rates and rates paid to purchasers (the interest spread) and contractual servicing fees, if applicable. IO strips are carried at fair value with gains or losses recorded as a component of shareholders' equity, similar to available-for-sale investment securities. At December 31, 2015 and 2014 no IO strips were recorded.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Bank's investment in the loan is allocated between the retained portion of the loan, the servicing asset, the IO strip, and the sold portion of the loan based on their relative fair values on the date the loan is sold. The gain on the sold portion of the loan is recognized as income at the time of sale. The carrying value of the retained portion of the loan is discounted based on the estimated yield of a comparable non-guaranteed loan. Significant future prepayments of these loans will result in the recognition of additional amortization of related servicing assets and an adjustment to the carrying value of related IO strips.

Bank Premises and Equipment

Bank premises and equipment are carried at cost, less accumulated depreciation. Depreciation is determined using the straight-line method over the estimated useful lives of the related assets. The useful lives of furniture, fixtures and equipment are estimated to be 3 to 5 years. Leasehold improvements are amortized over the lesser of the respective lease term (including renewal periods that are reasonably assured) or their useful lives, which are generally 7 to 14 years.

Certain operating leases contain scheduled and specified rent increases or incentives in the form of tenant improvement allowances or credits. The scheduled rent increases are recognized on a straight-line basis over the lease term as an increase in the amount of rental expense recognized each period. Lease incentives are capitalized at the inception of the lease and amortized on a straight-line basis over the lease term as a reduction of rental expense. Amounts accrued in excess of amounts paid related to the scheduled rent increases and the unamortized deferred credits are included in accrued interest payable and other liabilities on the balance sheet.

When assets are sold or otherwise disposed of, the cost and related accumulated depreciation or amortization are removed from the accounts, and any resulting gain or loss is recognized in income for the period. The cost of maintenance and repairs is charged to expense as incurred. The Bank evaluates premises and equipment for financial impairment as events or changes in circumstances indicate that the carrying amount of such assets may not be fully recoverable.

Business Combinations

The Bank accounts for acquisitions of businesses using the acquisition method of accounting. Under the acquisition method, assets acquired and liabilities assumed are recorded at their estimated fair values at the date of acquisition. The Bank utilizes various valuation techniques including discounted cash flow analyses to determine these fair values. Any excess of the purchase price over amounts allocated to the acquired assets, including identifiable intangible assets, and liabilities assumed is recorded as goodwill.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Goodwill and Other Intangible Assets

Goodwill resulted from the acquisition of PPB on December 31, 2015, and represents the excess of the purchase price over the fair value of acquired tangible asset and liabilities and identifiable intangible assets. Goodwill acquired in a purchase business combination and determined to have an indefinite useful life is not amortized, but tested for impairment at least annually or more frequently if events and circumstance exist that indicate a goodwill impairment test should be performed. The Bank has selected December 31 as the date to perform the annual impairment test. The Bank has one reporting unit to which all the goodwill is assigned. Goodwill is the only intangible asset with an indefinite life on the Bank's balance sheet.

Intangible assets with definite useful lives are amortized over their estimated lives to their estimated residual values. Intangible assets with definite useful lives consisted of core deposit intangible assets from the PPB acquisition. The core deposit intangible assets is being amortized on a straight line method over ten years.

Income Taxes

Deferred tax assets and liabilities are recognized for the tax consequences of temporary differences between the reported amount of assets and liabilities and their tax basis. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. A valuation allowance is recognized if, based on the weight of available evidence, management believes it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Accounting for Uncertainty in Income Taxes

The Bank considers all tax positions recognized in its financial statements for the likelihood of realization. When tax returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of the tax benefit that is more than 50 percent likely of being realized upon settlement with the applicable taxing authority.

California Bank of Commerce

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits in the accompanying balance sheet along with any associated interest and penalties that would be payable to the taxing authorities upon examination. Interest expense and penalties associated with unrecognized tax benefits, if any, are classified as income tax expense in the statement of income.

Earnings Per Share

Basic earnings per share (EPS), which excludes dilution, is computed by dividing net income by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock, such as stock options, result in the issuance of common stock which share in the earnings of the Bank. The treasury stock method is applied to determine the dilutive effect of stock options and restricted stock in computing diluted earnings per share. There were 800,587 and 782,337 stock options outstanding at December 31, 2015 and 2014, respectively. There were 120,060 and 111,000 anti-diluted stock option outstanding at December 31, 2015 and 2014, respectively.

Share-Based Compensation

The Bank has one share-based compensation plan, the California Bank of Commerce 2007 Equity Incentive Plan (the "Plan"), which has been approved by its shareholders and permits the grant of stock options and restricted stock for up to 825,000 shares of the Bank's common stock which none were available for grant at December 31, 2015. The Bank has issued the California Bank of Commerce 2014 Equity Incentive Plan (the "Plan"), which has been approved by its shareholders and permits the grant of stock options and restricted stock for up to 384,986 shares of the Bank's common stock, of which 296,935 shares were available for grant at December 31, 2015. The Plan is designed to attract and retain employees and directors. The amount, frequency, and terms of share-based awards may vary based on competitive practices, the Bank's operating results and government regulations. New shares are issued upon option exercise or restricted share grants. The Plan does not provide for the settlement of awards in cash.

For options, the Plan requires that the option price may not be less than the fair market value of the stock at the date the option is granted, and that the stock must be paid in full at the time the option is exercised.

Restricted stock awards are grants of shares of common stock that are subject to forfeiture until specific conditions or goals are met. Conditions may be based on continuing employment or achieving specified performance goals. During the period of restriction, participants holding restricted stock may have full voting and dividend rights. The restrictions lapse in accordance with a schedule or with other conditions determined by the Board of Directors.

California Bank of Commerce

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Bank recognizes share-based compensation expense for the fair value of all stock options and restricted stock that are ultimately expected to vest as the requisite service is rendered and considering the probability of any performance criteria being achieved.

Management estimates the fair value of each option award as of the date of grant using a Black-Scholes-Merton option pricing formula. Expected volatility is based on historical volatility of similar entities over a preceding period commensurate with the expected term of the option because the Bank's common stock has been publicly traded for a shorter period than the expected term for the options. The "simplified" method described in the Securities and Exchange Commission's Staff Accounting Bulletin No. 110 is used to determine the expected term of option awards. The risk-free rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Expected dividend yield was not considered in the option pricing formula since the Bank has not paid common stock dividends and has no current plans to do so in the future. The fair value of restricted stock awards is based on the value of the underlying shares at the date of the grant. Management makes estimates regarding pre-vesting forfeitures that will impact total compensation expense recognized under the Plan.

Comprehensive Income

Comprehensive income is a more inclusive financial reporting methodology that includes disclosure of other comprehensive income or loss that historically has not been recognized in the calculation of net income. Sources of other comprehensive income or loss include unrealized gains and losses on available-for-sale investment securities. Total comprehensive income and components of other comprehensive income, or loss, are presented in the statement of comprehensive income.

Fair Value of Financial Instruments

Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in a separate note. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect these estimates.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

New Accounting Standards

In May 2014 the FASB amended existing guidance related to revenue from contracts with customers. This amendment supersedes and replaces nearly all existing revenue recognition guidance, including industry-specific guidance, establishes a new control based revenue recognition model, changes the basis for deciding when revenue is recognized over time or at a point in time, provides new and more detailed guidance on specific topics and expands and improves disclosures about revenue. In addition, this amendment specifies the accounting for some costs to obtain or fulfill a contract with a customer. In August 2015, the FASB deferred the effective date of this standard by one year and this amendment is now effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. Early application is permitted only as of annual reporting periods beginning after December 31, 2016, including interim reporting periods within that period. The amendment should be applied retrospectively to all periods presented or retrospectively with the cumulative effect recognized at the date of initial application. The Bank is currently evaluating the impact of this new accounting standard on the financial statements.

In September 2015, the FASB amended existing guidance on Simplifying the Accounting for Measurement – Period Adjustments. The amendment requires that an acquirer recognize adjustments to estimate amount that are identified during the measurement period in the reporting period in which the adjustment amount are determined. The amendment requires that the acquirer record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the estimate amount, calculated as if the accounting had been completed at the acquisition date. This amendment is effective for public business entities for fiscal years beginning after December 15, 2015, including interim period within those fiscal years. The Bank is currently evaluating the impact of this new accounting standard on the financial statements.

In January 2016, the FASB issued guidance on Recognition and Measurement of Financial Assets and Financial Liabilities. The guidance intend to improve the recognition and measurement of financial instrument. The update intends to enhance the reporting model for financial instruments to provide users of financial instruments with more decision-useful information and addresses certain aspects of the recognition, measurement, presentation, and disclosure of financial instruments. This guidance is effective for all entities that hold financial assets and liabilities for fiscal year beginning after December 15, 2017. The Bank is currently evaluating the impact of this new accounting standard on the financial statements.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In February 2016, the FASB issued guidance on Accounting for Leases. The guidance clarifies the recognition of a right-to-use asset and lease liability on the statement of financial position for those leases previously classified as operating leases under the old guidance. The update maintains two classification of leases: Finance leases (which replaces capital leases) and Operating lease. The update provided certain criteria at lease commencement are met, the lease would be classify as a finance lease. This guidance is effective for public entities for fiscal year beginning after December 15, 2018, and including interim period within fiscal year beginning on January 1, 2019. The Bank is currently evaluating the impact of this new accounting standard on the financial statements.

California Bank of Commerce

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

2. BUSINESS COMBINATION

On December 31, 2015, the Bank completed its merger with PPB, acquiring 100% of the outstanding common stock of PPB in exchange for stock and cash. Under the terms of the merger agreement, the Bank issued 1,135,430 shares of its common stock and paid \$8,103,605 in cash in exchange for 5,016,710 shares of PPB common stock outstanding on December 31, 2015, which represent 100% of the voting equity interest of PPB. Also, pursuant to the merger agreement, the Bank paid cash totaling \$554,296 to settle certain stock option and restricted stock awards that had been granted by PPB to its employees and directors in connection with share-based compensation plans. This payment was accounted for by the Bank as part of the merger consideration.

The assets acquired and liabilities assumed have been accounted for under the acquisition method of accounting (formerly the purchase method). The assets and liabilities, both tangible and intangible, were recorded at their estimated fair values as of the December 31, 2015 acquisition date. The application of the acquisition method of accounting resulted in the recognition of goodwill of \$7,350,465. The goodwill represents the excess of the purchase price over the estimated fair value of the net assets acquired. The goodwill is not deductible for income tax purposes.

The Bank recorded merger related expenses of \$1,098,868, of which \$580,451 are expected to be deductible for income purposes. Below is the detail of the total consideration.

Cash consideration	\$ 8,103,605
Cash paid to settle PPB stock options and restricted stock	554,296
Stock consideration	<u>16,406,964</u>
Total	<u>\$ 25,064,865</u>

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

2. BUSINESS COMBINATION (Continued)

The table below summarizes the amounts recognized at their estimated fair values as of the acquisition date for each major class of assets acquired and liabilities assumed:

	<u>December 31, 2015</u>
Estimated fair value of assets acquired and liabilities assumed:	
Cash and cash equivalents	\$ 5,410,243
Securities	7,101,234
FHLB and other correspondent bank stocks	748,976
Loans	110,981,645
Premises and equipment	466,449
BOLI	2,339,689
Deferred tax asset, net	3,592,037
Core deposit intangible	558,468
Other assets	<u>659,860</u>
Total assets acquired	<u>131,858,601</u>
Deposits	113,908,640
Other liabilities	<u>235,561</u>
Total liabilities assumed	<u>114,144,201</u>
Cash and stock consideration	<u>25,064,865</u>
Goodwill recognized	<u>\$ 7,350,465</u>

The table below summarizes the adjustments made to the cost basis of in order to reflect them at their estimated fair values as of the acquisition date:

	<u>December 31, 2015</u>
Consideration	\$ 25,064,865
Less cost basis of net assets on merger date	16,968,397
Fair value adjustments:	
Loans	(419,647)
Core deposit intangible	558,468
Deferred tax assets, net	625,838
Other assets	98,640
Interest bearing deposits	(335,854)
Other liabilities	<u>218,558</u>
Less total fair value adjustments	<u>746,003</u>
Goodwill recognized	<u>\$ 7,350,465</u>

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

2. BUSINESS COMBINATION (Continued)

The fair value of net assets acquired includes fair value adjustments to certain receivables that were not considered impaired as of the acquisition date. The fair value adjustments were determined using discounted contractual cash flows. However, the Bank does not believe it is probable it will be unable to collect all contractual cash flows related to these loans and as such, these receivables were not considered impaired at the acquisition date and were not subject to the guidance relating to purchased credit impaired loans, which have shown evidence of credit deterioration since origination. The estimated fair value and gross contractual amounts receivable related to these non-PCI loans totaled \$110,346,268 and \$112,701,082 on the date of acquisition.

The following table presents unaudited pro forma information as if the acquisition had occurred on January 1, 2014. The unaudited pro forma information includes adjustments for interest income on loans and securities acquired, amortization of intangibles arising from the transaction, depreciation expense on property acquired, interest expense on deposits acquired, and the related income tax effects. The proforma net income presented for the year ended December 31, 2015 also excludes certain other expenses directly attributable to the business combination totaling \$2,509,568, which primarily related to severance payments and professional services. The unaudited pro forma financial information is not necessarily indicative of the results of operations that would have occurred had the transaction been effected on January 1, 2014:

	<u>Pro Forma (Unaudited)</u>	
	<u>2015</u>	<u>2014</u>
Net interest income	\$ <u>23,475,317</u>	\$ <u>20,400,514</u>
Net income	\$ <u>3,429,057</u>	\$ <u>4,021,965</u>
Basic earnings per common share	\$ <u>0.62</u>	\$ <u>0.86</u>
Diluted earnings per common share	\$ <u>0.60</u>	\$ <u>0.83</u>

California Bank of Commerce

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

3. FAIR VALUE MEASUREMENTS

Fair Value Hierarchy

The Bank groups its assets and liabilities measured at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. Valuations within these levels are based upon:

Level 1 – Quoted market prices for identical instruments traded in active exchange markets.

Level 2 – Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable or can be corroborated by observable market data.

Level 3 – Model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect the Bank's estimates of assumptions that market participants would use on pricing the asset or liability. Valuation techniques include management judgment and estimation which may be significant.

Management monitors the availability of observable market data to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total assets, total liabilities or total earnings.

These estimates do not reflect any premium or discount that could result from offering the Bank's entire holdings of a particular financial instrument for sale at one time, nor do they attempt to estimate the value of anticipated future business related to the instruments. In addition, the tax ramifications related to the realization of unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in any of these estimates.

NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

3. FAIR VALUE MEASUREMENTS (Continued)

Fair Value of Financial Instruments (Continued)

The methods and assumptions used to estimate fair values are described as follows:

Cash and Cash Equivalents – The carrying amounts of cash and short-term instruments approximate fair values and are classified as Level 1.

Investment Securities – Since quoted prices are generally not available for identical securities, fair values are calculated based on market prices of similar securities on similar dates, resulting in Level 2 classification.

FHLB, IBFC, PCBB Stocks – It is not practical to determine the fair value of these correspondent bank stocks due to restrictions placed on their transferability.

Loans – Fair values of loans are estimated as follows: For variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values resulting in Level 3 classification. Fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality resulting in Level 3 classification. The fair value of impaired loans with specific allocations of the allowance for loan losses is generally based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price.

Deposits – The fair values disclosed for demand deposits (e.g., interest and non-interest checking, passbook savings, and certain types of money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amount) resulting in Level 1 classification. The carrying amounts of variable rate and fixed-term money market accounts approximate their fair values at the reporting date resulting in Level 1 classification. Fair values for fixed rate certificates of deposit are estimated using a discounted cash flows calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits resulting in Level 2 classification.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

3. FAIR VALUE MEASUREMENTS (Continued)

Fair Value of Financial Instruments (Continued)

Other Borrowings – Fair values for other borrowings are estimated using discounted cash flow analyses using interest rates offered at each reporting date by correspondent banks for advances with similar maturities resulting in Level 2 classification.

Accrued Interest Receivable – The carrying amounts of accrued interest receivable approximate fair value resulting in a Level 2 classification for accrued interest receivable on investment securities and a Level 3 classification for accrued interest receivable on loans since investment securities are generally classified using Level 2 inputs and loans are generally classified using Level 3 inputs.

Accrued Interest Payable – The carrying amounts of accrued interest payable approximate fair value resulting in a Level 2 classification, since accrued interest payable is from deposits that are generally classified using Level 2 inputs.

Off Balance Sheet Instruments – Fair values for off-balance sheet, credit-related financial instruments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing. The fair value of commitments is not material.

3. FAIR VALUE MEASUREMENTS (Continued)

Assets Recorded at Fair Value

The following tables present information about the Bank's assets and liabilities measured at fair value on a recurring and nonrecurring basis:

Recurring Basis

The Bank is required or permitted to record the following assets at fair value on a recurring basis.

<u>Description</u>	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
<u>December 31, 2015</u>				
Available-for-sale investment securities				
Debt securities:				
Mortgage-backed securities - residential	\$ 17,171,608	\$ -	\$ 17,171,608	\$ -
Corporate bonds	<u>14,614,910</u>	<u>-</u>	<u>14,614,910</u>	<u>-</u>
Total assets measured at fair value on a recurring basis	<u>\$ 31,786,518</u>	<u>\$ -</u>	<u>\$ 31,786,518</u>	<u>\$ -</u>

<u>Description</u>	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
<u>December 31, 2014</u>				
Available-for-sale investment securities				
Debt securities:				
Mortgage-backed securities - residential	\$ 12,059,027	\$ -	\$ 12,059,027	\$ -
U.S. Agency	2,003,580	-	2,003,580	-
Corporate bonds	<u>17,258,323</u>	<u>-</u>	<u>17,258,323</u>	<u>-</u>
Total assets measured at fair value on a recurring basis	<u>\$ 31,320,930</u>	<u>\$ -</u>	<u>\$ 31,320,930</u>	<u>\$ -</u>

Fair values for available-for-sale investment securities are based on quoted market prices for exact or similar securities. During the years ended December 31, 2015 and 2014, there were no significant transfers in or out of Levels 1 and 2 and there were no changes in the valuation techniques used.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

3. FAIR VALUE MEASUREMENTS (Continued)

Non-recurring Basis

The Bank may be required, from time to time, to measure certain assets at fair value on a non-recurring basis. These include assets that are measured at the lower of cost or market value that were recognized at fair value which was below cost at the reporting date. There were no assets or liabilities measured at fair value on a non-recurring basis as of December 31, 2015. The following table summarizes assets measured at fair value on a non-recurring basis at December 31, 2014.

Description	Fair Value	Level 1	Level 2	Level 3
December 31, 2014				
Other real estate owned	\$ 2,571,000	\$ -	\$ -	\$ 2,571,000

The other real estate owned in the table above represents one property that was foreclosed on during the year, was recorded at fair value at the time of transfer and was considered to be measured at fair value at December 31, 2014 due to that transfer occurring in close proximity to December 31, 2014. The fair values for the other real estate owned in the table above are based on appraisals and are categorized as Level 3 due to ongoing real estate market conditions resulting in inactive market data, which in turn required the use of unobservable inputs and assumptions in fair value measurements. A gain of \$100,808 was recognized on the foreclosure of the above other real estate owned property and there were no other gains or losses on the property recognized during the year ended December 31, 2014. The referenced OREO property was subsequently sold in 2015, resulting in a gain on sale of \$17,531.

The following table presents quantitative information about level 3 fair value measurements for assets measured at fair value on a non-recurring basis at December 31, 2014:

	Fair Value	Valuation Technique(s)	Unobservable Input(s)	Range
December 31, 2014				
Other real estate owned	\$ 2,571,000	Sales comparison approach	Adjustment for differences between the comparable sales	0-(20)%

4. INVESTMENT SECURITIES

The following table summarizes the amortized cost and fair value of securities available-for-sale at December 31, 2015 and 2014 and the corresponding amounts of gross unrealized gains and losses:

<i>Available-for-Sale</i>	December 31, 2015			Estimated Fair Value
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	
Mortgage-backed securities - residential	\$ 17,083,627	\$ 87,981	\$ -	\$ 17,171,608
Corporate bonds	<u>14,643,409</u>	<u>15,693</u>	<u>(44,192)</u>	<u>14,614,910</u>
Total available-for-sale	<u>\$ 31,727,036</u>	<u>\$ 103,674</u>	<u>\$ (44,192)</u>	<u>\$ 31,786,518</u>

<i>Available-for-Sale</i>	December 31, 2014			Estimated Fair Value
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	
Mortgage-backed securities - residential	\$ 11,931,394	\$ 127,633	\$ -	\$ 12,059,027
US Agency	2,000,000	3,580	-	2,003,580
Corporate bonds	<u>17,237,336</u>	<u>50,131</u>	<u>(29,144)</u>	<u>17,258,323</u>
Total available-for-sale	<u>\$ 31,168,730</u>	<u>\$ 181,344</u>	<u>\$ (29,144)</u>	<u>\$ 31,320,930</u>

Net unrealized gains on available-for-sale investment securities totaling \$59,482 were recorded, net of \$24,388 in deferred tax assets, as accumulated other comprehensive income within shareholders' equity at December 31, 2015. Net unrealized holding losses arising during the year ended December 31, 2015 totaled \$114,892.

Net unrealized gains on available-for-sale investment securities totaling \$152,200 were recorded, net of \$62,402 in deferred tax assets, as accumulated other comprehensive income within shareholders' equity at December 31, 2014. Net unrealized holding gains arising during the year ended December 31, 2014 totaled \$602,782.

There was one available-for-sale investment security which matured during the year ended December 31, 2015 totaling \$1,500,000. Available-for-sale investment securities that were called during the year December 31, 2015 totaled 6,477,322. Proceeds and gross realized losses from the sale of available-for-sale investment securities for the year ended December 31, 2015 totaled \$5,062,778 and \$22,174, respectively.

There was one available-for-sale investment security which matured during the year ended December 31, 2014 totaling \$1,600,000. Proceeds and gross realized gains from the sale of available-for-sale investment securities for the year ended December 31, 2014 totaled \$28,484,519 and \$52,919, respectively.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

4. INVESTMENT SECURITIES (Continued)

The amortized cost and fair value of debt securities as of December 31, 2015 are shown by contractual maturity. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date are shown separately.

	<u>Amortized Cost</u>	<u>Fair Value</u>
Available-for-sale		
Within one year	\$ 3,598,251	\$ 3,601,195
One to five years	11,045,158	11,013,715
Five to ten years	-	-
Mortgage-backed securities not due at a single maturity date	<u>17,083,627</u>	<u>17,171,608</u>
Total	<u>\$ 31,727,036</u>	<u>\$ 31,786,518</u>

At December 31, 2015, investment securities with amortized costs totaling \$9,176,144 and estimated fair values totaling \$9,245,549 were pledged to secure borrowing arrangements in place with the Wells Fargo Bank. (See Note 11)

At December 31, 2014, investment securities with amortized costs totaling \$6,639,967 and estimated fair values totaling \$6,663,676 were pledged to secure borrowing arrangements in place with the Federal Reserve Bank of San Francisco. (See Note 11)

At year-end 2015, there were no holdings of securities of any one issuer, other than the U.S. Government Agencies, in an amount greater than 2.6% of shareholder's equity.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

4. INVESTMENT SECURITIES (Continued)

At December 31, 2015, the Bank's investment security portfolio consisted of 25 securities, 7 of which were in an unrealized loss position at year end. All of the securities in a loss position at year-end, were corporate bonds. Management believes that changes in the market value of its corporate securities since purchase are primarily attributable to changes in interest rates and relative illiquidity and not credit quality. Because the Bank has the ability and intent to hold those investments until a recovery of fair value, which may be at maturity, the Bank does not consider those investments to be other-than-temporarily impaired at December 31, 2015.

The following table summarizes securities with unrealized losses at December 31, 2015 and December 31, 2014, aggregated by major security type and length of time in a continuous unrealized loss position:

	<u>Less Than 12 Months</u>		<u>12 Months or Longer</u>		<u>Total</u>

6. ALLOWANCE FOR LOAN LOSSES (Continued)

The following table shows information related to impaired loans at and for the year ended December 31, 2015:

	<u>Recorded Investment</u>	<u>Unpaid Principal Balance</u>	<u>Related Allowance</u>	<u>Average Recorded Investment</u>	<u>Interest Income Recognized</u>
With no related allowance recorded:					
Commercial & Industrial	\$ -	\$ -	\$ -	\$ -	\$ -
Real Estate - Other	1,253,556	1,491,587	-	1,253,556	-
With an allowance recorded:					
Commercial & Industrial	\$ 1,619,543	\$ 1,619,543	\$ 225,000	\$ 2,067,600	\$ 107,221
Total:					
Commercial & Industrial	\$ 1,619,543	\$ 1,619,543	\$ 225,000	\$ 2,067,600	\$ 107,221
Real Estate - Other	1,253,556	1,491,587	-	1,253,556	-

Interest forgone on nonaccrual loans totaled \$88,031 and \$56,812 for the years ended December 31, 2015 and 2014, respectively. There was no interest recognized on a cash-basis on impaired loans for the years ended December 31, 2015 and 2014.

The following table shows information related to impaired loans at and for the year ended December 31, 2014:

	<u>Recorded Investment</u>	<u>Unpaid Principal Balance</u>	<u>Related Allowance</u>	<u>Average Recorded Investment</u>	<u>Interest Income Recognized</u>
With no related allowance recorded:					
Commercial & Industrial	\$ -	\$ -	\$ -	\$ -	\$ -
Real Estate - Other	1,300,069	1,500,587	-	1,300,069	-
With an allowance recorded:					
Commercial & Industrial	\$ 1,030,087	\$ 1,030,087	\$ 156,000	\$ 1,065,345	\$ 56,812
Total:					
Commercial & Industrial	\$ 1,030,087	\$ 1,030,087	\$ 156,000	\$ 1,065,345	\$ 56,812
Real Estate - Other	1,300,069	1,500,587	-	1,300,069	-

The recorded investment in impaired loans in the tables above excludes accrued interest receivable and net deferred loan origination costs due to their immateriality.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

6. ALLOWANCE FOR LOAN LOSSES (Continued)

Troubled Debt Restructurings

At December 31, 2015, the Bank had a recorded investment of \$2,739,115 and had allocated specific reserves totaling \$225,000 related to loans with terms that had been modified in troubled debt restructurings. At December 31, 2014, the Bank had a recorded investment of \$2,330,155 and had allocated specific reserves totaling \$156,000 related to loans with terms that had been modified in troubled debt restructurings. The Bank has no commitment as of December 31, 2015 to customers with outstanding loans that are classified as troubled debt restructurings.

During the year ending December 31, 2015 and 2014, the terms of certain loans were modified as troubled debt restructurings. The modification of the terms of such loans included either a reduction of the stated interest rate of the loan, an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk, or a combination thereof.

During the year ending December 31, 2015 three modifications involved one loan a 3 month extension of the maturity date and two loans a 12 month extension of the maturity date. During the year ending December 31, 2014 each of the two modifications involved a 12 month extension of the maturity date.

The following table presents loans by class modified as troubled debt restructurings that occurred during the years ending December 31, 2015 and 2014:

	<u>Number of Loans</u>	<u>Pre-Modification Outstanding Recorded Investment</u>	<u>Post-Modification Outstanding Recorded Investment</u>
<u>2015</u>			
Troubled Debt Restructurings:			
Commercial & industrial	<u>3</u>	<u>\$ 1,370,528</u>	<u>\$ 1,370,528</u>
<u>2014</u>			
Troubled Debt Restructurings:			
Commercial & industrial	<u>2</u>	<u>\$ 1,080,087</u>	<u>\$ 1,080,087</u>

California Bank of Commerce

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

6. ALLOWANCE FOR LOAN LOSSES (Continued)

Troubled Debt Restructurings (Continued)

The 2015 troubled debt restructurings described above increased the allowance for loan losses by \$69,000. The 2014 troubled debt restructurings described above increased the allowance for loan losses by \$23,000.

There were no loans modified as troubled debt restructurings for which there was a payment default within twelve months following the modification during the year ending December 31, 2015 and 2014.

A loan is considered to be in payment default once it is 90 days contractually past due under the modified terms.

Purchased Credit Impaired Loans

The Bank evaluated loans acquired in its merger with PPB in accordance with accounting guidance related to loans acquired with deteriorated credit quality (PCI loans). Acquired loans are considered PCI loans if there is evidence of deterioration of credit quality since origination and it is probable, at the acquisition date, that the Bank will be unable to collect all contractually required payments receivable. At December 31, 2015, the Bank determined one loan to be a PCI loan with an estimated fair value of \$572,480. The contractual cash flows of this loan totaled \$721,092 and the expected cash flows totaled \$598,383, resulting in an accretable difference of \$25,903 and a nonaccretable difference of \$122,709. There was no allowance for loan losses on this loan, as it was recorded at its estimated fair value as of December 31, 2015.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

7. PREMISES AND EQUIPMENT

Premises and equipment consisted of the following:

	December 31,	
	2015	2014
Furniture, fixtures and equipment	\$ 2,269,424	\$ 1,024,798
Leasehold improvements	1,292,518	222,177
	3,561,942	1,246,975
Less accumulated depreciation and amortization	(1,211,289)	(1,005,130)
	\$ 2,350,653	\$ 241,845

Depreciation and amortization included in occupancy and equipment expense totaled \$206,159 and \$158,459, respectively, for 2015 and 2014.

8. GOODWILL AND OTHER INTANGIBLE ASSETS

The Bank analyzes its goodwill for impairment on an annual basis and between annual tests in certain circumstances such as upon material adverse changes in legal, business, regulatory and economic factors. Impairment exists when a reporting unit's carrying value of goodwill exceeds its fair value. At December 31, 2015, the Bank's reporting unit had positive equity and management determined there was no need for an impairment analysis because the business combination which gave rise to the goodwill was completed on December, 31, 2015.

The core deposit intangible ("CDI") is evaluated for impairment if events and circumstances indicate a possible impairment. The CDI is amortized on a straight line over an estimated life of 10 years.

There were no CDI amortization in 2015. The following table provides the estimated future amortization expense of core deposit intangibles:

Year Ending December 31,	
2016	\$ 55,847
2017	55,847
2018	55,847
2019	55,847
2020	55,847
2021 and after	279,233
Total	\$ 558,468

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

9. INTEREST-BEARING DEPOSITS

Interest-bearing deposits consisted of the following:

	December 31,	
	2015	2014
Savings	\$ 44,573,564	\$ 41,037,883
Money market	172,756,432	93,951,633
Interest-bearing demand accounts	20,146,673	20,986,125
Time, \$100,000 or more	70,866,917	56,111,970
Other time	8,700,765	2,380,515
	<u>\$ 317,044,351</u>	<u>\$ 214,468,126</u>

Time deposits greater than \$250,000 totaled \$31,031,936 and \$27,426,329, respectively, for 2015 and 2014.

Aggregate annual maturities of time deposits are as follows:

Year Ending December 31,	
2016	\$ 53,178,321
2017	16,527,443
2018	9,759,254
2019	122,664
	<u>\$ 79,587,682</u>

Interest expense recognized on interest-bearing deposits for the years ended December 31, 2015 and 2014 consisted of the following:

	Year Ended December 31,	
	2015	2014
Savings	\$ 182,987	\$ 168,693
Money market	461,143	369,912
Interest-bearing demand accounts	16,365	36,940
Time, \$250,000 or more	260,296	246,524
Other time	11,478	12,071
	<u>\$ 932,269</u>	<u>\$ 834,140</u>

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

10. INCOME TAXES

The provision for income taxes for the years ended December 31, 2015 and 2014 consisted of the following:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
<u>2015</u>			
Current	\$ 1,356,636	\$ 553,465	\$ 1,910,101
Deferred	<u>(225,419)</u>	<u>(98,509)</u>	<u>(323,928)</u>
Provision for income taxes	<u>\$ 1,131,217</u>	<u>\$ 454,956</u>	<u>\$ 1,586,173</u>
	<u>Federal</u>	<u>State</u>	<u>Total</u>
<u>2014</u>			
Current	\$ 1,522,830	\$ 233,136	\$ 1,755,966
Deferred	<u>128,342</u>	<u>87,422</u>	<u>215,764</u>
Provision for income taxes	<u>\$ 1,651,172</u>	<u>\$ 320,558</u>	<u>\$ 1,971,730</u>

The Bank's reported amount of income tax expense differs from federal statutory rates in 2015 due principally to California franchise taxes and merger expenses, and in 2014 due principally to California franchise taxes and nondeductible stock based compensation.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS

Net deferred tax assets	\$ 6,272,699	\$ 2,331,087

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

10. INCOME TAXES (Continued)

As a result of the merger with Pan Pacific Bank, at December 31, 2015, the Bank has approximately \$7.4 million of net operating loss carryforwards for federal and California income tax purposes which begin to expire in 2026 and 2017, respectively. Pursuant to Sections 382 of the Internal Revenue Code, annual use of net operating loss carryforwards may be limited in the event of a change in ownership. Net operating losses acquired from Pan Pacific Bank are subject to Section 382 annual limitations in the amount of approximately \$640,000 per year.

The Bank files income tax returns in the U.S federal, California, and Virginia jurisdictions. There are currently no pending U.S. federal or state income tax or non-U.S. income tax examinations by tax authorities. The Bank is subject to tax examinations by U.S. Federal and state taxing authorities for all tax returns filed since 2012 for Federal purposes and 2011 for California purposes.

As of December 31, 2015 and 2014, there were no unrecognized tax benefits or interest and penalties accrued by the Bank.

11. BORROWING ARRANGEMENTS

Under agreements with several correspondent banks, the Bank can borrow up to \$46,000,000. In a separate agreement, the Bank can borrow up to \$10,000,000 or the total market value of securities pledged to a correspondent bank under a repurchase agreement. At December 31, 2015 and 2014, there were no investment securities pledged to the correspondent bank under this agreement. There were no borrowings outstanding under these arrangements at December 31, 2015 and 2014.

The Bank has a borrowing arrangement with the Federal Reserve Bank of San Francisco (FRB) under which advances are secured by portions of the Bank's loan and investment securities portfolios. The Bank's credit limit varies according to the amount and composition of the assets pledged as collateral. At December 31, 2015, amounts pledged and available borrowing capacity under such limits were approximately \$143,101,000 and \$98,438,000, respectively. There were no borrowings outstanding under this arrangement as of December 31, 2015 and 2014.

The Bank has a borrowing arrangement with the Federal Home Loan Bank (FHLB) under which advances are secured by portions of the Bank's loan portfolio. The Bank's credit limit varies according to its total assets and the amount and composition of the loan portfolio pledged as collateral. At December 31, 2015, amounts pledged and available borrowing capacity under such limits were approximately \$182,312,000 and \$55,658,000, respectively.

At December 31, 2015 and 2014, there were \$29,000,000 in borrowings outstanding under this arrangement at fixed interest rates ranging from 1.11% to 1.16% with a maturity date of February 7, 2017. The weighted average interest rate on these borrowings was 1.13% at December 31, 2015 and 2014.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

12. COMMITMENTS AND CONTINGENCIES

Operating Leases

The Bank currently operates five offices (its headquarters in Lafayette, California, two loan production offices - one in Oakland, California and the other in San Jose, California and two branch offices – one in Fremont, California and the other in San Jose, California).

The main office lease, dated June, 2007, as amended, had a 90 month initial term from the date of occupancy in November 2007. CABC has executed several renewal amendments with a current leased premises of approximately 7,000 square feet. The current lease term is five years from October 2015 to September 2020 with one 60 month renewal option. The headquarters office is leased from an affiliated party. (See Note 15)

The Bank leases premises with approximately 11,000 square feet in Oakland, California for a loan production and administrative office. The lease for the Oakland loan production and administrative office is for an initial term of seven years, with a 60 month renewal option. The current term of the lease expires on January 31, 2023.

The Bank leases premises with approximately 4,000 square feet in San Jose, California for a loan production office. The lease for the San Jose loan production office is for an initial term of seven years, with a 60 month renewal option. The current term of the lease expires on February 1, 2023.

The Bank leases premises with approximately 8,500 square feet in Fremont, California as a branch office. The lease for the Fremont branch office was assumed in the Bank's merger with PPB and had an initial term of ten years, with a 84 month renewal option. The current term of the lease expires on June 30, 2022.

The Bank leases premises with approximately 3,500 square feet in San Jose, California as a branch office. The lease for the San Jose branch office was assumed in the Bank's merger with PPB and had an initial term of 88 months. The current term of the lease expires on September 30, 2021.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

12. COMMITMENTS AND CONTINGENCIES (Continued)

Future minimum lease payments are as follows:

	<u>Year Ending December 31,</u>
2016	\$ 1,193,512
2017	1,135,855
2018	1,171,153
2019	1,208,489
2020	1,152,477
Thereafter	<u>1,721,623</u>
	<u><u>\$ 7,583,109</u></u>

Rental expense included in occupancy and equipment expense totaled \$735,268 and \$593,157 for the years ended December 31, 2015 and 2014, respectively.

Financial Instruments with Off-Balance-Sheet Risk

The Bank is a party to financial instruments with off-balance-sheet risk in the normal course of business in order to meet the financing needs of its customers and to reduce its own exposure to fluctuations in interest rates.

The following financial instruments represent off-balance-sheet credit risk:

	<u>December 31,</u>	
	<u>2015</u>	<u>2014</u>
Commitments to extend credit	\$ 190,800,000	\$ 130,504,000
Standby letters of credit	\$ 7,567,000	\$ 4,858,000

The Bank's exposure to credit loss in the event of nonperformance by the other party for commitments to extend credit is represented by the contractual amount of those instruments. The Bank uses the same credit policies in making commitments as it does for loans included on the balance sheet.

California Bank of Commerce

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

12. COMMITMENTS AND CONTINGENCIES (Continued)

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since some of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Bank evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, is based on management's credit evaluation of the borrower. Collateral held varies, but may include accounts receivable, inventory, and deeds of trust on residential real estate and income-producing commercial properties.

Standby letters of credit are conditional commitments issued to guarantee the performance of a client to a third party. The credit risk involved in issuing standby letters of credit is essentially the same as that involved in extending loans to clients. The fair value of the liability related to these standby letters of credit, which represents the fees received for issuing the guarantees, was not significant at December 31, 2015 and 2014. The Bank recognizes these fees as revenue over the term of the commitment or when the commitment is used.

Commercial loan commitments represent approximately 76% of total commitments and are generally unsecured or secured by collateral other than real estate and have variable interest rates. Real estate loan commitments represent approximately 10% of total commitments and are generally secured by property with a loan-to-value ratio not to exceed 75%. The majority of real estate commitments also have variable interest rates.

Significant Concentrations of Credit Risk

The Bank grants real estate mortgage, real estate construction, commercial and installment loans to customers in the Bank's geographic service area. Commercial & industrial loans and real estate loans represented 42.9% and 55.6% of total loans, respectively, at December 31, 2015. Although management believes such concentrations to have no more than the normal risk of collectability, a substantial decline in the economy in general, or a decline in real estate values in the Bank's primary market area in particular, could have an adverse impact on collectability of these loans. Personal and business income represents the primary source of repayment for a majority of these loans.

California Bank of Commerce
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

12. COMMITMENTS AND CONTINGENCIES (Continued)

Deposit Concentrations

At December 31, 2015, there were no deposit relationships exceeded 5% of total deposits.

At December 31, 2014, three deposit relationships exceeded 5% of total deposits. The three deposit relationships totaled \$24,251,230, \$20,000,000, and \$19,111,772, or 6.8%, 5.6% and 5.4%% of total deposits, respectively. The first account represented both operating and money market deposit accounts of a long-term commercial clients. The \$20,000,000 time deposit was collateralized by a FHLB letter of credit. The \$19,111,772 deposit relationship, which was a cash management account invested as a CDAR's reciprocal deposit, is comprised of seven one-year and one two-year time certificates of deposit of varying maturities.

Contingencies

The Bank may be subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to such actions will not materially affect the financial position or results of operations of the Bank.

Correspondent Banking Agreements

The Bank maintains funds on deposit with other federally insured financial institutions under correspondent banking agreements. Insured financial institution deposits up to \$250,000 are fully insured by the FDIC under the FDIC's general deposit insurance rules. Uninsured deposits at financial institutions were not significant at December 31, 2015, with the exception of one interest-bearing deposit in the amounts of \$5,250,000 and \$5,000,000, respectively as of December 31, 2015 and December 31, 2014.

13. SHARE-BASED COMPENSATION

Share-Based Compensation Plans

The California Bank of Commerce 2007 Equity Incentive Plan (the "2007 Plan") permits the granting of stock options and restricted stock to directors, organizers and employees of the Bank. Grants of options to the organizers during the start-up phase of the Bank and to the Directors are considered non-qualified stock option awards. All other option grants are considered incentive stock option awards. The 2007 Plan does not have any shares available for future grant as of December 31, 2015.

The Bank has issued the California Bank of Commerce 2014 Equity Incentive Plan (the "2014 Plan"), which was approved by its shareholders and permits the grant of stock options and restricted stock for up to 384,986 shares of the Bank's common stock, of which 296,935 shares were available for future grant at December 31, 2015. The Plan is designed to attract and retain employees and directors. The amount, frequency, and terms of share-based awards may vary based on competitive practices, the Bank's operating results and government regulations. New shares are issued upon option exercise or restricted share grants. Shares may also be granted under the 2014 Plan that vest immediately without restriction. The Plan does not provide for the settlement of awards in cash.

Stock Option Awards

For the years ended December 31, 2015 and 2014, the compensation cost recognized for stock option awards was \$212,210 and \$272,505, respectively.

A summary of option activity under the 2007 Plan and 2014 Plan for the years ended December 31, 2015 and 2014 is presented below:

<u>Options</u>	<u>Shares</u>	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Contractual Term (Years)</u>	<u>Aggregate Intrinsic Value</u>

13. SHARE-BASED COMPENSATION (Continued)

Stock Option Awards (Continued)

As of December 31, 2015, the unrecognized compensation cost related to non-vested stock option awards totaled \$541,474. That cost is expected to be amortized on a straight-line basis over a weighted average period of 2.13 years and will be adjusted for subsequent changes in estimated forfeitures. The intrinsic value of options exercised during the years ended December 31, 2015 and 2014 totaled \$328,179 and \$26,600, respectively.

The following information relates to stock option grants granted during the years ended December 31, 2015 and 2014:

	<u>2015</u>	<u>2014</u>
Weighted average grant date fair value per share of options granted	\$ 13.87	\$ 11.42
Significant fair value assumptions:		
Expected term in years	6 years	6 years
Expected annual volatility	40.17%	68.23%
Expected annual dividend yield	0%	0%
Risk-free interest rate	1.44%	1.68%

Stock Awards

Ten stock awards totaling 11,000 shares were granted and issued during the year ended December 31, 2015. These stock awards were fully vested upon grant. The grant date fair value of these awards was \$13.85 per share, or \$152,350 which was recorded as compensation expense for the year ended December 31, 2015.

Ten stock awards totaling 12,240 shares were granted and issued during the year ended December 31, 2014. These stock awards were fully vested upon grant. The grant date fair value of these awards was \$11 per share, or \$134,640 which was recorded as compensation expense for the year ended December 31, 2014.

NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

14. SHAREHOLDERS' EQUITY

Issuance of Common Stock in Business Combination

On December 31, 2015, the Bank issued 1,135,430 shares of its common stock with a fair value totaling \$16,406,964 in connection with its merger with PPB.

Common Stock Offering

During the year ended December 31, 2014, the Bank completed an offering of its common stock. Proceeds totaling \$16,000,008 from the sale of 1,539,943 shares were recorded net of \$335,000 in stock offering costs. The Bank intends to use the additional capital to allow for additional growth and for general business purposes.

Dividends

Upon declaration by the Board of Directors, all shareholders of record will be entitled to receive dividends. The California Financial Code restricts the total dividend payment of any state banking association in any calendar year to the lesser of (1) the bank's retained earnings or (2) the bank's net income for its last three fiscal years, less distributions made to shareholders during the same three-year period.

Regulatory Capital

The Bank is subject to certain regulatory capital requirements administered by the Federal Deposit Insurance Corporation (FDIC). Failure to meet these minimum capital requirements can initiate certain mandatory and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements.

Under capital adequacy guidelines, the Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. These quantitative measures are established by regulation and require that minimum amounts and ratios of total capital, Tier 1 capital and common equity Tier 1 capital to risk-weighted assets and of Tier 1 capital to average assets be maintained. Capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

In 2013, the Federal Reserve, FDIC, and Office of the Comptroller of the Currency issued final rules (the "Basel III Capital Rules") establishing a new comprehensive capital framework for U.S. banking organizations. The rules implement the Basel Committee's December 2010 framework, commonly referred to as Basel III, for strengthening international capital standards, as well as implementing certain provisions of the Dodd-Frank Act.

14. SHAREHOLDERS' EQUITY (Continued)

The Basel III Capital Rules substantially revise the risk-based capital requirements applicable to depository institutions compared to the previous U.S. risk-based capital rules. The Basel III Capital Rules became effective for the Bank on January 1, 2015 (subject to phase-in periods for some of their components). The Basel III Capital Rules: (i) introduce a new capital measure called Common Equity Tier 1 ("CET1") and a related regulatory capital ratio of CET1 to risk-weighted assets; (ii) specify that Tier 1 capital consists of CET1 and "Additional Tier 1 capital" instruments, which are instruments treated as Tier 1 instruments under the prior capital rules that meet certain revised requirements; (iii) mandate that most deductions or adjustments to regulatory capital measures be made to CET1 and not to the other components of capital; and (iv) expand the scope of the deductions from and adjustments to capital, as compared to existing regulations.

Under the Basel III Capital Rules, for most banking organizations, the most common form of Additional Tier 1 capital is noncumulative perpetual preferred stock and the most common form of Tier 2 capital is subordinated notes and a portion of the allowance for loan and lease losses, in each case, subject to the Basel III Capital Rules' specific requirements.

The Basel III Capital Rules also introduce a new "capital conservation buffer," composed entirely of CET1, on top of these minimum risk-weighted asset ratios. The capital conservation buffer is designed to absorb losses during periods of economic stress. Banking institutions with a ratio of CET1 to risk-weighted assets above the minimum but below the capital conservation buffer will face constraints on dividends, equity repurchases and compensation based on the amount of the shortfall. The implementation of the capital conservation buffer began on January 1, 2016 at 0.625% and will be phased in over a four-year period (increasing by that amount on each subsequent January 1, until it reaches 2.5% on January 1, 2019). Thus, when fully phased-in on January 1, 2019, the Bank will be required to maintain this additional capital conservation buffer of 2.5% of CET1.

The Bank is also subject to additional capital guidelines under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain minimum total risk-based, Tier 1 risk-based, Tier 1 leverage and common equity Tier 1 risk-based ratios as set forth in the table on the following page. As of December 31, 2015 and 2014, the most recent notification from the FDIC categorized the Bank as well capitalized under these guidelines. There are no conditions or events since that notification that management believes have changed the Bank's category. Management believes that the Bank met all capital adequacy requirements as of December 31, 2015 and 2014.

15. RELATED PARTY TRANSACTIONS

The Bank enters into transactions with related parties, including Directors, executive officers and affiliates.

The following is a summary of the aggregate activity involving related party borrowers during the years ended December 31, 2015 and 2014:

Balance, January 1, 2014	\$	10,841,439
Disbursements		27,050
Amounts repaid		<u>(1,544,124)</u>
Balance, December 31, 2014		<u>9,324,365</u>
Disbursements		7,730,771
Amounts repaid		<u>(7,482,773)</u>
Balance, December 31, 2015	\$	<u>9,572,363</u>
Undisbursed commitments to related parties, December 31, 2015	\$	<u>9,705,522</u>

At December 31, 2015 and 2014, the Bank's deposits from related parties totaled approximately \$18,316,000 and \$15,562,000, respectively.

The Bank also leases its head office from a company owned by a member of the Board of Directors. Rental payments under this agreement totaled \$556,928 for the year ended December 31, 2015 and \$585,945 for the year ended December 31, 2014.

16. EMPLOYEE BENEFIT PLANS

Profit Sharing Plan

In 2007, the Bank adopted the California Bank of Commerce Profit Sharing 401(k) Plan. All full-time employees 21 years of age or older with 3 months of service are eligible to participate in the 401(k) Plan. Eligible employees may elect to make tax deferred contributions up to the maximum amount allowed by law. The Bank may make additional contributions to the plan at the discretion of the Board of Directors. Bank contributions may vest at a rate of 20% annually for all employees. The Bank made a fully vested contribution to the 401(k) Plan for the year ended December 31, 2015 in the amount of \$249,000. The Bank made a fully vested contribution to the 401(k) Plan for the year ended December 31, 2014 in the amount of \$216,000.

16. EMPLOYEE BENEFIT PLANS (Continued)

Salary Continuation and Retirement Plan

The Board of Directors approved a salary continuation plan for certain executives during 2007 and 2014. Under the Plan, once executives reach age 65, the Bank is obligated to provide executives with annual benefits after retirement. The estimated present value of these future benefits is accrued from the effective date of the plan based on a discount rate of 4.0%.

The expense recognized under this plan for the years ended December 31, 2015 and 2014 totaled \$62,360 and \$97,475, respectively. Accrued compensation payable under the salary continuation plan totaled \$446,760 and \$409,400 at December 31, 2015 and 2014, respectively, and is included in accrued interest payable and other liabilities on the Bank's balance sheet.

17. OTHER EXPENSES

Other expenses for the years ended December 31, 2015 and 2014 consisted of the following:

	<u>2015</u>	<u>2014</u>
Director's stock-based and other compensation	\$ 595,348	\$ 482,103
Outsourced data processing and electronic banking	563,578	329,647
Professional fees	518,828	587,421
Advertising, promotion and business development	411,621	325,761
Computer network and internet support	402,788	394,276
Regulatory fees	346,895	284,001
Loan processing	174,711	138,517
Correspondent bank service charges	164,072	181,385
Telecommunications	101,570	86,125
Bank insurance	84,709	72,485
Provision for unfunded loan commitments	30,000	5,000
Other operating expenses	<u>397,112</u>	<u>316,971</u>
Total other expenses	<u>\$ 3,791,232</u>	<u>\$ 3,203,692</u>

18. PREFERRED STOCK

Small Business Lending Fund ("SBLF")

On September 15, 2011, as part of the Small Business Lending Fund ("SBLF"), the Bank entered into a Small Business Lending Fund Securities Purchase Agreement ("SBLF Purchase Agreement") with the United States Department of the Treasury ("Treasury"). Under the SBLF Purchase Agreement, the Company issued 11,000 shares of Senior Non-Cumulative Perpetual Preferred Stock, Series C (the "Series C Preferred") to the Treasury. The preferred stock series C shares qualify as Tier 1 capital and will pay quarterly dividends. The initial and current dividend as of December 31, 2015 was 1%. The dividend rate was fixed at 1% until March 15, 2016. After this date, the dividend rate increased to 9%.

19. SUBSEQUENT EVENTS

Management has reviewed all events occurring from December 31, 2015 through March 21, 2016 the date the financial statements were available to be issued.
